

xtreme Innovation Marketing, LLC

Profile

Xtreme Innovation Marketing LLC provides innovative internet marketing solutions, consulting services, creative design, market research and analysis. XIM also services internet web, designed to drive traffic to new sites and increase visibility to those already existing. Clients will also benefit from XIM's ability to provide key back office support, thanks to our remote IT support division. This is targeted towards our clients' business continuity, compliance and data integrity.

Through ongoing collaboration with our clients, we are able to assist them with fresh and innovative solutions for their projects. We will collaborate and work jointly as a team to design advanced awareness of their products and services to reach full potential of their business goals. All, while maintaining desired levels of cost avoidance that positively impact their bottom-line.

The combination of Marketing, Creativity and Technology allows us to be a multi-dimensional and innovative resource, unlike any other. Using technology to leverage today's marketing tools, XIM is unique in the fact that the clients marketing strategies and options are individually tailored to facilitate growth and visibility within the clients' specific market-space. As a company we seek long term relationships with our clients, based on mutual success and profitability, while leaving room for expansion and diversity for future endeavours.
